

YOUR PORTABLE PRINTING PARTNER

COMPANY PROFILE & PRODUCT GUIDE

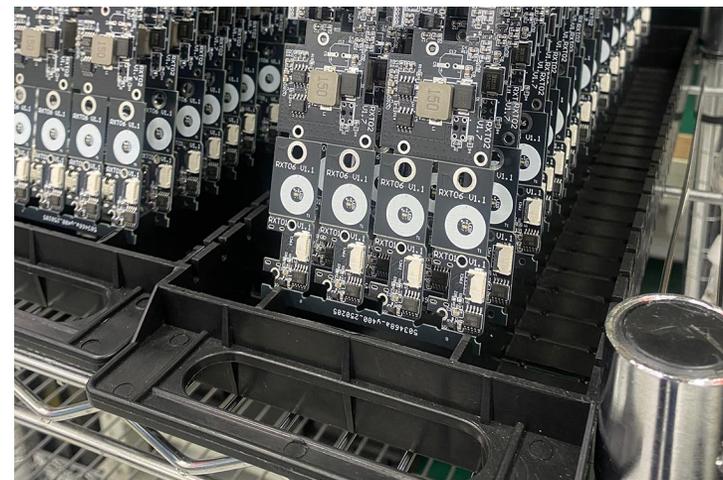

01 Brand Introduction of RYYES

RYYES is a professional portable printer **brand incubated by NEWYES Group**—a well-established entity with solid industrial experience.

Since 2020, we **have invested heavily in R&D and design of portable printers, aiming to lead the global portable printing market.** Backed by NEWYES Group, we've built a full industrial chain (from independent R&D to stable production). Our core strengths include self-developed private molds, owned patents, and long-term cooperative contract factory—ensuring quality, portability and innovation of every printer.

To date, we've launched multiple portable printer categories, sold over 10,000 units globally, and built an in-house IT team to develop/maintain an exclusive APP for seamless "device + software" experience. Our products also hold relevant certifications, validating our quality commitment.

02 Core Strengths

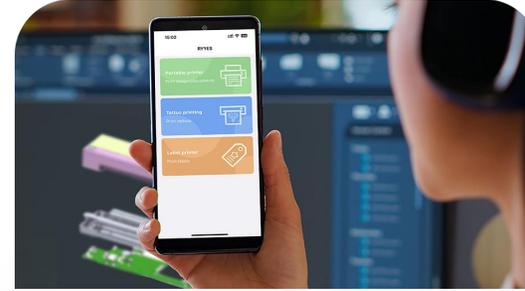

Independent R&D Capabilities

Own private molds and multiple patents, ensuring unique product competitiveness and technological barriers.

Complete Supply Chain Control

Cooperate with designated contract manufacturers to guarantee stable production quality and efficient delivery.

End-to-End Technical Support

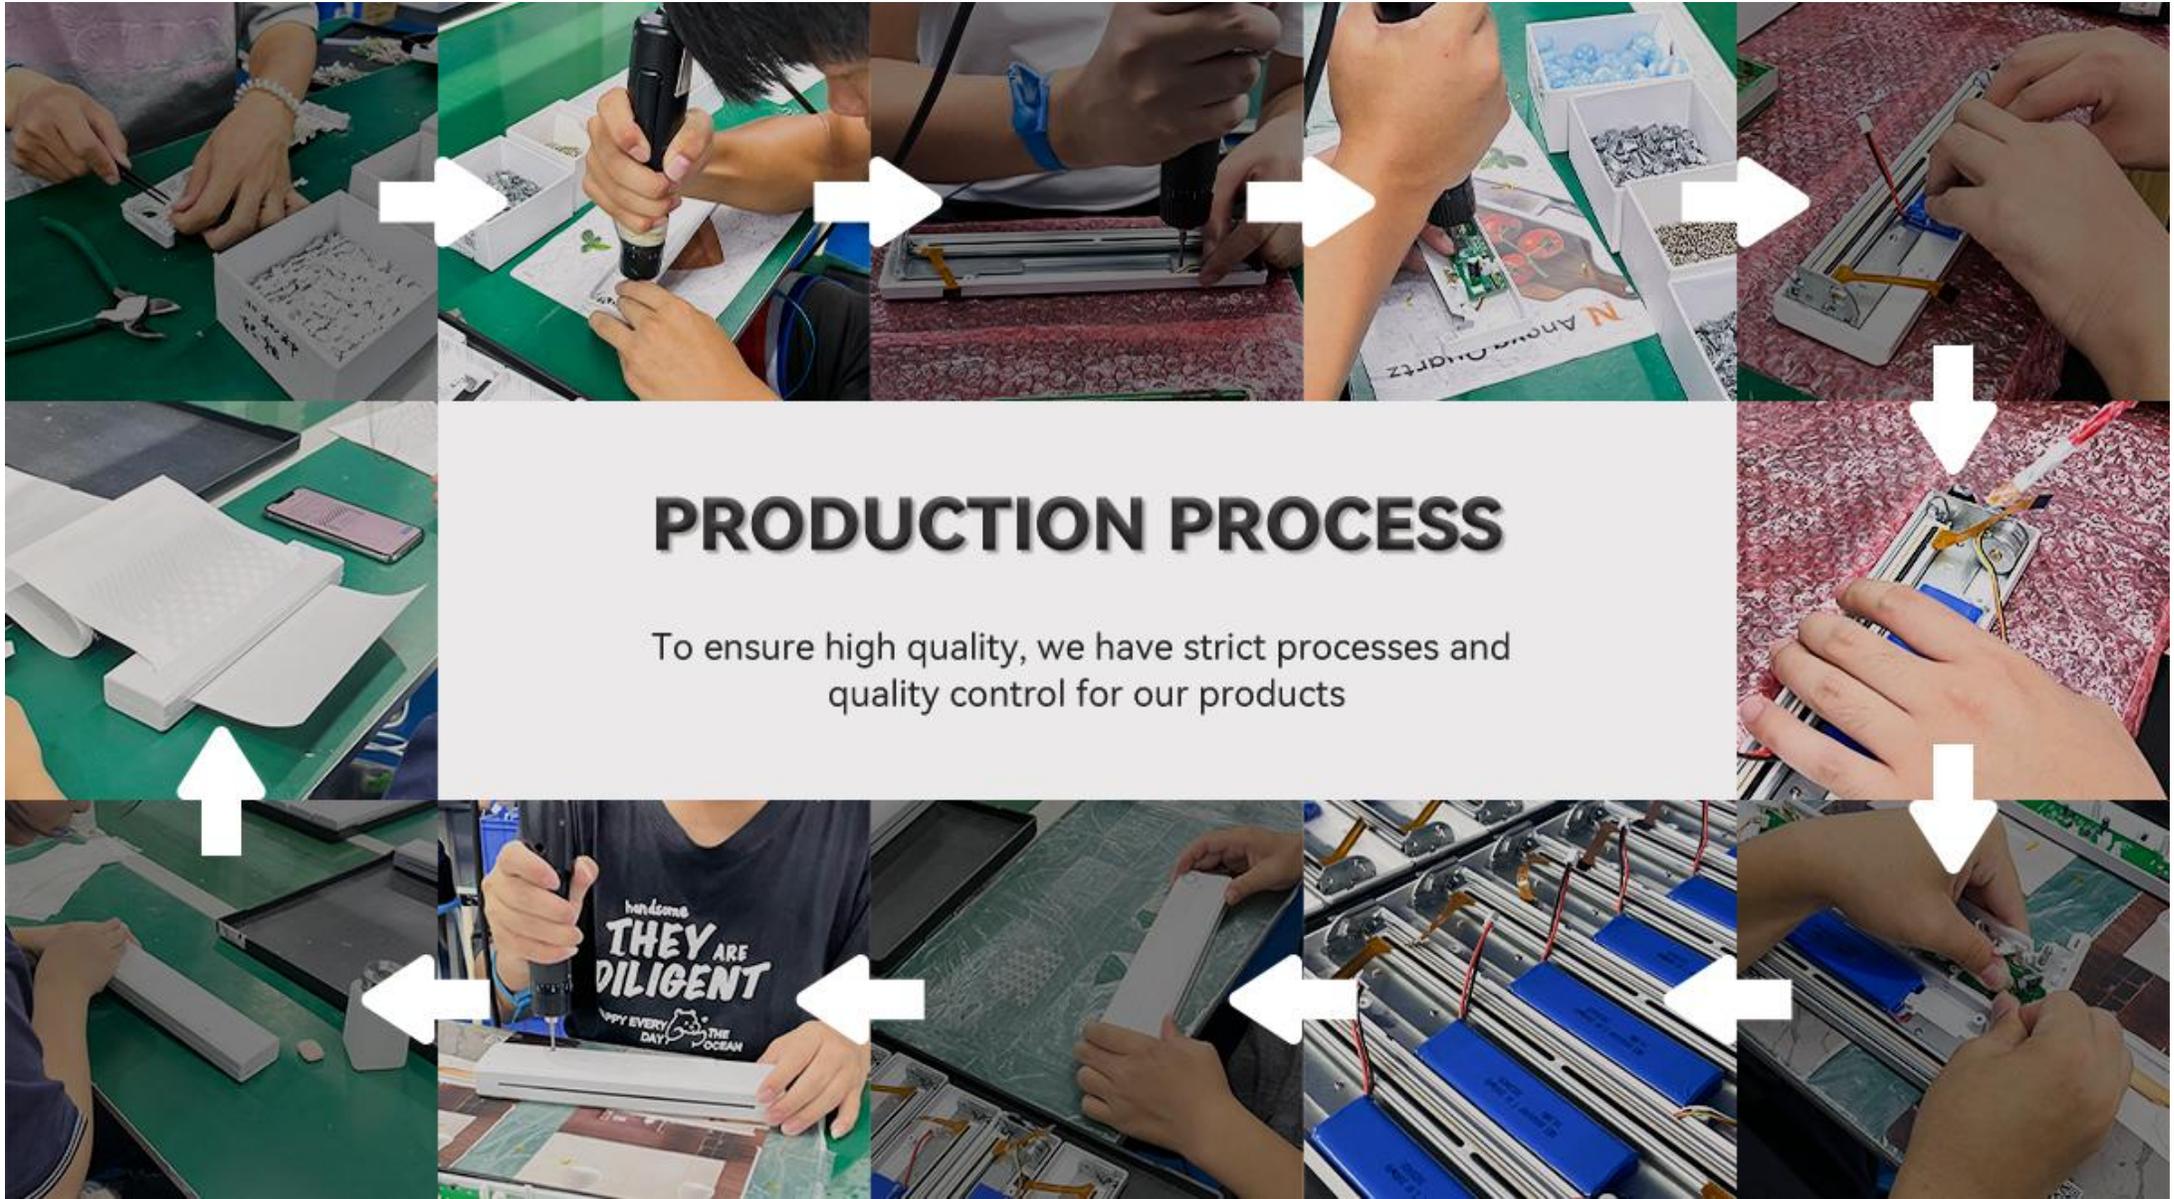

Have an in-house IT team that independently develops and maintains the brand's exclusive supporting APP, enabling seamless connection between devices and smart terminals

Flexible Light Customization Support

We offer light customization with low MOQ, plus social media marketing materials support—helping clients drive business growth

NEW

A4 Inkjet Portablet Printer

Specification

- MODEL: LD0806
- Size: 294*74*52.5mm
- Product weight: **750g**
- Paper width: 210mm (A4 paper)
- Battery capacity: 1800mAh
- Charging: Type-C
- Printing method: Inkjet printing
- Continuous printing: About 80 sheets
- Input current: DC 5V/2A
- Print resolution: 300dpi
- Ink cartridge page yield: 500 sheets (black), 200 sheets (color)
- Supporting devices: Android/ iOS/Mac
- Supporting formats: PDF/ Word/ JPG/ PNG
- **Support Normal A4 paper**

05 Core Selling Point

Ultra-Portable Design

Lightweight and compact, easy to take on trips or between workspaces. Also prints quickly for instant document output.

A4 Normal Paper & Color Printing

Uses regular A4 paper and delivers vibrant color prints for documents, photos, etc.

Easy Operation

Equipped with an auto document feeder for continuous, hassle-free printing

WiFi Connection

One-touch WiFi setup. Works with multiple systems (iOS, Android, Windows) and supports various file types for printing.

A4 Portable Thermal Printer

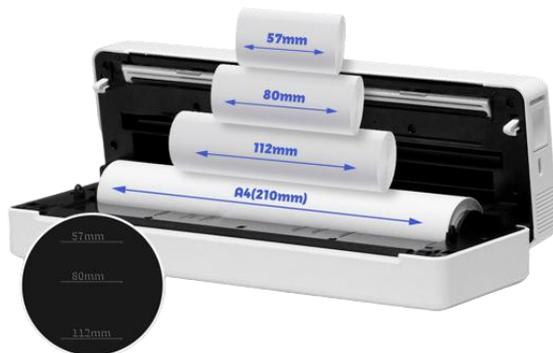

Specification

- MODEL: LD0801
- Material: Metal and ABS plastic
- Product Weight: **476g**
- Product Size: 265*58*30mm
- Printing method: thermal printing
- A4 thermal paper dimensions:210mm*297mm
- Continuous printing:~90 sheets
- Battery capacity:1200mAh
- Auto power off:30 mins
- Input current:DC 5V/2A
- Charging time:~1.30H,type C
- Print resolution:203dpi
- Supporting devices:Android/ iOS system devices

A4 Portable Thermal Printer

Specification

- MODEL: LD0802
- Material: Metal and ABS plastic
- Size: 262*80.7*46.8mm
- Product Weight: **617g**
- A4 thermal paper dimenssions:
- Supporting Roll paper: 57/80/112/210mm(A4), length: 7.4m
- Folding paper: 210mm*297mm (A4 Size)
- Continuous printing:≈120sheets
- Battery capacity:2000mAh, 7.4V
- Charging time:≈2H,type C
- Print resolution:203dpi
- Supporting devices:Android/ iOS system devices
- Supporting formats:PDF/ Word/ JPG/ PN

05 Core Selling Point

**No ribbons and ink
One-click connection**

Ribbon and ink-free, slashing consumable costs. Connects to phones/laptops with one click for fast setup

**Ultra-portable
Design**

Compact and lightweight, easy to carry for students or business travelers needing on-the-go printing.

**Outstanding
Printing Effect**

Delivers clear, sharp, high-quality prints for text, images, and documents

**Environmentally
Friendly paper**

BPA-free, eco-safe paper. Prints last over 10 years, no fading like ordinary thermal paper.

A4 Portable Tattoo Printer

Specification

- Model: LD0803
- Product Size: 292mm×62mm×42mm
- Product Weight: **588g**
- Printing method: thermal printing 203DPI
- Charging interface Type-C
- Power input 5V $\overline{=}$ 2A
- Battery capacity: 2000mAh
- Charging time: 1.8H
- Voltage 7.4V
- Endurance: 1.65H, about 200 copies of A4 sheets
- Printhead lifespan: 30 Kilometers
- Supporting devices: Windows, Mac OS, Android, iOS

05 Core Selling Point

▶ Shading tattoo

▶ Line tattoo

Superior Printing Quality with Clear Details

Ensures sharp, shadow tattoo stencil prints, reproducing intricate designs precisely for accurate skin transfer.

Compact and Lightweight

Easy to carry and move, great for studio or on-site tattoo sessions, boosting mobility

Long-lasting Battery & Silent Operation

2000mAh battery powers multiple prints per charge. Runs quietly, keeping the workspace peaceful.

Automatic Paper Feeding

Simplifies printing—no manual paper adjustment. Smoothly feeds and positions stencil paper, saving time.

06 Customer Feedback

Since its establishment, RYYES has achieved remarkable market performance, with over 10,000 portable printers sold globally, demonstrating strong customer recognition for its product quality and portability.

07 OUR TEAM

Every one of us will take our extensive expertise in our areas to provide our clients with professional and quality services.
